# A Message from Claremont Educational Foundation and the SLICE of Summer Committee

We are excited to announce our plans for 2020 SLICE of Summer programming! We are planning a variety of academic and enrichment courses for students in grades 1-12.

We are cautiously optimistic about our summer enrichment programming at El Roble at the end of July. Due to the current health crisis situation, the novel coronavirus (COVID-19), we are delaying student enrollment. Currently, our target registration launch date is May 5th, pending further information regarding public safety.

In addition, for the second year, we are partnering with University of La Verne to offer Technology Education for the 21st Century. This ONLINE ONLY class will allow students entering 7th-12th grade the opportunity to receive 5 high school credits and complete their Tech Ed graduation requirement. Stay tuned for course tuition, materials fees, and registration information.

Thank you to everyone for your patience and understanding in this challenging time.
